INTRODUCTORY

IN PRESENTING this volume of the City Directory, it is but fitting that we should offer some remarks regarding the same. The contents of this work are the results of several months of labor by experts in name taking, using every precaution and search to get correct names, addresses, etc.

A complete directory is never the result of a single canvass, and is obtained only by a liberal expenditure of both time and money, utilizing the information obtained through previous issues and a continual collection of data. Directory publishing is a vocation peculiar to itself, and is carried on properly only by those experienced in and thoroughly conversant with its many details.

Allow us to make the following suggestions: First, as to the similarity of names which, in sound, are the same, but often spelled very differently. For illustration, the name Read is spelled Read, Reid, Reed, Reade, Reide, etc. In looking for names, use judgment in the search and ascertain whether it may not be spelled differently from your idea of it, and go through the list making sure if the name you are looking for is given. We have known people looking for "Smith" throw down the book in disgust when, on investigation, the name sought for proved to be Smythe.

In conclusion, we wish to thank our many patrons for the generous support they have given us, and trust that the result of our efforts will meet with their approval and appreciation. We have used every precaution to issue a valuable and accurate work. While errors may be found, such, however, are unavoidable in a work of this kind.

Street and Avenue Guide

Vine street divides the street running north and south on west side of Black River, and Bartlett street divides them on the east side of the river. Black River divides the streets running east and west. The even numbers are found on the buildings located on the east and south sides of the streets, while those on the west and north are numbered odd.

ALICE—6th W of Black River from Main N to limits
 ALMOND—1st S of Bartlett from Front E to limits
 ALVIN—11th W of Black River from Vine to Kinzer
 APPLE—10th N of Vine from Main W to limits
 B—1st E of Front, extends N and S
 BARTLETT—Dividing line on E side of river for streets running N and S, extends from river E to limits
 BEECH—9th S of Bartlett from river E to limits
 BENTON—8th W of river from Main to limits

FOR BETTER DRY GOODS

Fractions after number indicate the floor— $\frac{1}{2}$ the second, 1-3 the third, etc.

The word street is always understood.

To find a name you must know how to spell it.

There being no rule for spelling proper names, we would suggest that you look for it under several headings.

A directory is simply to give a person's name and address. The occupation or business is to distinguish persons of the same name apart, anything else is advertising.

Name in Parentheses () is wife's name.

The street directory is arranged alphabetically by numbers. It shows the number of each building and the name of the firm or the head of the family residing therein.

Names appearing in CAPITALS are patrons of this directory.

ABBREVIATIONS:

adv—advertising	clec—electrician	pub—publisher
agt—agent	emp—employed	r—resides
asst—assistant	eng—engineer	ret—retired
av—avenue	mfr—manufacturer	rms—rooms

**THIS YEAR, WIN WITH POWER—AND MACHINES
TO MATCH**

From the standpoint of effort the tractor owner has an easy time compared with the other fellow. He does not have to crack the whip over tired and weary horses. He has no chores to do. He has full power and full efficiency at his command at all times, regardless of heat and dust and flies. His tractor and tools may be made to work through twenty-four hours a day, if the season demands such extra speed, with utmost efficiency.

Remember, your earnings come from what you actually do and not from the amount of time you spend plodding behind unwieldy teams. Hired labor costs you the same for inefficient outfits as for money-making tractor outfits. The difference shows up in your profits at the end of the year. That is one important reason why so many farmers are discarding their ungainly, inefficient teams and adopting McCormick-Deering tractors and power farming equipment.

McCormick-Deering tractors and machines are built to work together. You can choose your machines and plan your work so as to keep your tractor busy practically every day, accomplishing from two to four times as much as is possible with horse-drawn tools.
