INTRODUCTORY

The First Directory of Poplar Bluff, under the present management, is now before the people, and is confidently expected that the directory will be found accurate and complete.

An "absolutely correct" directory cannot be gotten up. A few errors, mostly typographical, will creep in, however careful the compiler may be, but this book has received as able, experienced and careful supervision as any in the country.

Few business men have any idea of the vast amount of work and large expenditure a publication of this kind involves, and do not seem to understand that it is impossible to publish a work of this kind on subscription orders alone. A first-class directory is like a newspaper, it depends on advertising. On another page will be found the list of advertisers, and we hope that people will appreciate them, as to them belongs the credit that this book is published.

We often hear complaints on the canvass from our customers, that their directories are borrowed by neighbors (who are also in business), and that when they need it themselves some one else has it. Don't lend your Directory; it costs you money, and your business neighbor is fully as able to buy one as yourself. We always call on these "borrowers" to solicit an order, and in almost every case they inform us that they "have no use for a directory," and before it is dry from the press they are "borrowing" yours.

In the directory this year will be found 4,938 names, 241 taken from this for firm names, churches, etc., leaves 4,775. This amount multiplied by two, the same multiple used by all directory publishers throughout the country, gives Poplar Bluff a population of 9,480, or more than double the number shown in the 1890 census.

Do NOT LEND YOUR DIRECTORY

It cost you money. Your next door neighbor is as well able to buy a Directory as you are. His subscription was solicited, but he had "no use for a Directory." You will find he has use for yours. And when you need it most the chances are you will have to go to him to get it back. We find out on every canvas that one of the regular questions put to us is: "Did Mr. --- subscribe for a book? He is always borrowing ours, but the gentleman doesn’t have any more use for a Directory than a balloon, when it comes to paying for one. Every business and professional office needs a City Directory and should have one. People who would be ashamed to borrow your daily paper think they have a right to borrow your Directory.
