## MISCELLANEOUS INFORMATION

# Poplar Bluff, Missouri

## Trade Capital of Southeast Missouri

### *Location:*

Poplar Bluff, a thriving city of more than 16,000 people is the county seat of Butler County, which is located in the southeastern corner of Missouri. It is a city built upon the bluffs overlooking the fabulous Mississippi Delta, which stretches southward from Poplar Bluff to the Gulf. To the west and north of the city are the beautiful Ozark Highlands—with their tree covered hills and picturesque valleys—with their clear, swift-flowing streams and sparkling springs. Poplar Bluff is conveniently located midway between St. Louis and Little Rock—St. Louis and Memphis. It is in the center of a 29 county trade area—20 counties of southeast Missouri and 9 counties in Northeast Arkansas, having a total population of over 650,000.

### *Transportation Facilities:*

POPLAR BLUFF is as well served by railroad as any community its size in the country. The Missouri Pacific Main line from St. Louis to the Southwest maintains a division Station and yards here. The city is also served by a branch line of the Frisco Railroad. U. S. Highways 60 and 67 cross at Poplar Bluff, facilitating truck and bus service to all parts of the nation. The Earl Fields Municipal Airport is located two and one-half miles east of town on U. S. Highway 60, for the convenience of air transportation.

### *Recreation:*

Lake Wappapello is the heart of Poplar Bluff recreation land. It is 40 miles long with 150 miles of shore line and covers 5,700 acres. There you will find plenty of elbow room to cast for the "big one" in the lake's many inlets. Fishin' a mile wide or 60 feet narrow. Bass, crappie, bluegill, channel cat, goggle eye, and the vicious jack salmon are waiting for you. Whether you like bait casting, fly-casting, or the sure hook and line; whether you have expensive equipment or only a hook and worm, the fish are yours (to catch) and the thrill is the same. You'll come back to Lake Wappapello.

Only a few miles from the Wappapello Dam is the Famous Mingo Wildlife Reserve. The government has purchased 22,000 acres for the development of a water fowl refuge. The pool will cover about 15,000 acres at a depth of from 1 to 9 feet.

Our recreation land offers you endless opportunities for enjoyment: hiking, river and stream swimming, nature study and relaxation in the clean, sweet air of the Ozark out-of doors.

There are two golf courses which offer interest to the golfing enthusiast.

### *Health:*

POPLAR BLUFF has four modern hospitals. They are well equipped and splendidly staffed. It is considered to be the medical center of southeast Missouri, with its many physicians and specialists. There is now under construction a large Veterans General Hospital with a capacity of two hundred beds.

### *Churches:*

POPLAR BLUFF is proud of its churches. They would be a credit to a city twice its size. There are 25 churches in the city—practically all denominations are represented. An outstanding feature is the men's Sunday School classes, of which the Methodist and Christian Churches boast an enrollment of some 650 each.

### *Schools:*

POPLAR BLUFF has adequate school facilities with a Junior and Senior High School, a well equipped Vocational Agriculture Department, school gymnasium and athletic field, and many grade schools properly distributed throughout the city. There are two private kindergartens, two parochial schools, a business college and two trade schools. In addition there is a newly established Baptist Junior College, which is growing very rapidly.

### *Housing and Tourist Accomodations:*

POPLAR BLUFF has never had a business boom, but has had a steady growth. We have three modern hotels and many smaller ones. Tourist camps and cabins are numerous and well maintained. Our residential section is well kept. There are many flower gardens, rock gardens and many kinds of trees and shrubbery. The citizens of this city take an unusual pride in garden activities.

### *Natural Resources:*

The Poplar Bluff trade territory is well supplied with the gift of nature. Mineral resources include large deposits of pottery clay, iron ore, stone for ballast, gravel and sand and immeasurable undeveloped mineral wealth. Forest resources were at one time among the finest in the nation, both as to hard and soft woods. Today the National Forests and many privately owned forests are being managed on a sustaining yield basis. By far the greatest resource of the Poplar Bluff trade territory is its soil, for this region is predominantly agricultural. The Delta offers great opportunities for further agricultural development. Much of this land is extremely rich and awaits only proper drainage before large crops of cotton, vegetables and other farm products are realized. In the hill region there are many valley pastures available for livestock production. Mineral fuels are readily available from nearby coal and natural gas fields.

### *Man Power:*

Our Trade area has a population of over 650,000, of which a plentiful supply of both skilled and unskilled labor is available to industrial demands and opportunities.

### *Industries:*

There are many industries manufacturing a variety of products with local, state and national distribution. The principal ones are the Internation Shoe Company, Black River Shoe Company, Weil-Kalter Manufacturing Company, Joseph G Baldwin Wood Products, McKim Saw Company, Halferty & Greathouse Planing Mills, Tiffany Stand Company, Hana & Young Handle Company, Holcomb Machine Works, Jackson Metal Works, Monarch Venetian Blind Company, Poplar Bluff Handle Works, Porter-DeWitt Construction Company, Poplar Bluff Tent & Awning Company, Kelton

## MISCELLANEOUS INFORMATION

Block Company, Poplar Bluff Stave Company, and the Missouri Pacific Railroad Shops.

These plants manufacture a variety of articles ranging from rayon ladies garments to specialized metal products. Our industries are in their infancy. Great industrial development is expected within the next decade.

### Businesses:

POPLAR BLUFF is a retail and wholesale trade center for a vast territory with a large population. Among our businesses are all sorts of apparel, hardware, machinery and food distributors. There are many service institutions in addition to these businesses. There are approximately 800 Poplar Bluffians engaged in business or professional work. Our office buildings and stores are modern and occupied by progressive, enterprising business men.

#### ABBREVIATIONS:

To find a name you must know how to spell it: There being no rule for spelling proper names, we would suggest that you look for it under several headings.

Name in parenthesis ( ) is wife's name

A directory is simply to give a persons name and address. The occupation or business is to distinguish persons of the same name apart, anything else is advertising.

The street directory is arranged alphabetically by number. It shows the number of each building, and the name of the firm or the head of the family residing therein.

Names appearing in CAPITALS are patrons of this directory.
